## K-12 TECHNOLOGY AND RESPONSE TO INTERVENTION CONFERENCE

*Blending technology, teamwork and tiered interventions to improve student achievement*

**JANUARY 13-15, 2012, MONTEREY, CA**

Studies show that **integrated technology, professional learning communities** and **Response to Intervention** are crucial components that help K-12 students learn and achieve at high levels – but how do you successfully combine these elements to reach *all* students, including **students with disabilities** and **English learners**? Choose from **over 100 sessions** on these topics and more:

### • Integrated Technology

See how free or low-cost tools and strategies can **engage students** through project-based learning and student-generated content, and **engage staff** by streamlining instruction, assessment, data analysis and collaboration.

### • Professional Learning Communities

**Understand how collaboration, assessment and intervention work in a PLC that is implementing RTI** and how leadership teams can build cultural momentum despite resistance. Explore examples of master scheduling, data and assessment, common planning time, and team dynamics.

### • Response to Intervention

Delve deeper into **school-wide RTI systems** and **classroom-based differentiated instruction** (DI). Hear from experts and educators who have effectively used RTI and DI to better support all students and raise API scores.

## TESTIMONIALS

“This conference reinforced past learned concepts and introduced new strategies.”  
-George Sanderson, Vice Principal, Bishop Elementary School

“The presenters were terrific and inspiring. The conference made me more open to possibilities of social networks and expanded my awareness of free training and tools online.”  
-Gloria Shaw, Teacher, Learning for Life Charter School (grades 6-12)

“I’m going to share implementation ideas for our school with the principal, use tools in my classroom, and share with colleagues in my department and PLC.”  
-Geri Coats, English Department Chair, Righetti High School

## OPTIONAL TICKETED FOCUS SESSIONS

*Sessions are first-come, first-served. Sign up as soon as possible during the conference registration process to reserve your space. You must be registered for the conference to attend.*

### Friday, January 13 / 10:00 am – 12:00 pm

**Will Richardson / Personal Learning Networks: Using the Power of Connections to Transform Learning in Our Classrooms and for Ourselves**

Learning is social. Now, with the Web, it’s globally social. To flourish as learners in a connected world, we need a network that we can trust and turn to when we need answers, inspiration or direction. We’ve always crafted these Personal Learning Networks (PLNs) face to face, but increasingly we’re doing so online. Learn what PLNs are, how they can influence our learning lives and future success, how to construct them using Web tools, and the implications for students, schools and your professional practice. **Price: \$65**

### Saturday, January 14 / 10:00 am – 12:00 pm

**Dr. Douglas Fisher / Response to Instruction and Intervention**

Educators are always discussing RTI, but how can RTI help students and schools improve? We’ll examine quality core instruction (tier 1), supplemental interventions (tier 2), and intensive interventions (tier 3) – plus define guided instruction (questions, prompts, and cues), analyze teaching videos to determine needed interventions, and explore a feed-forward model for taking action on formative assessments. Learn how align resources with student success at your site. **Price: \$65**

### Friday, January 13 / 2:30 pm – 5:00 pm

**Saturday, January 14 / 2:30 pm – 5:00 pm**

**Dr. Mark Wagner: iPad 2 for Educators – includes iPad 2!**

Get a 16-GB wifi iPad 2 and learn to use it! In this hands-on session, you’ll explore initial iPad 2 setup, how to add content to the iPad 2, how to make the most of iTunes U, and how to find the best educational apps available - including apps for creating content and media. An overview of mobile learning in the classroom, cutting-edge 1:1 programs, and volume licensing for education will be included. **Price: \$675**
